

FRAX[®]

WHO Fracture Risk Assessment Tool

FRAX[®] Acknowledgements

FRAX[®] is a constantly evolving tool and is the result of collaboration with many colleagues across the world. The development of specific country models and addition of languages is made possible by such collaborations and we wish to acknowledge the input of the persons below. Apologies if we have missed anyone in this list and please make contact so that we can make the appropriate corrections.

Best wishes

Eugene McCloskey
