Dear «Title» «Surname»

The RATPAC Trial of Rapid Blood Testing for Acute Chest Pain

At your recent visit to the Accident and Emergency Department at «Site_name» on «Date_of_attendance» you kindly agreed to take part in this research study. Thank you for your help with this project so far. We would be grateful if you could now complete the enclosed questionnaire. This should take about fifteen minutes.

Please send this back to the Medical Care Research Unit at the University of Sheffield, using the enclosed envelope (no stamp is required). We will send you another shorter questionnaire in two months time.

If you need any help completing this questionnaire or have any questions about the research, please contact me using the details above.

Many thanks.

Yours sincerely

Liz Cross
RATPAC Trial Manager
