

## Well done to Derby, North Staffs and Plymouth!

Our three newest sites are keeping the central team at Sheffield on their toes! No sooner did these sites launch, and it was time for their third patient monitoring visit! Well done and keep up the good work.

### SPOTLIGHT ON.....EQ-5D and VAS

- Completion rates are excellent, which is fantastic as this is one of our primary outcomes.
- Just a reminder to think EQ-5D & VAS during the patient's time in the ED- you can't record this data later
