

DAFNEplus

Happy Christmas!

Welcome to the Christmas edition of DAFNEplus news! We would like to wish all sites a very Happy Christmas and we look forward to working with you in the New Year.

The University of Sheffield will be closed over the festive period from Wednesday 25th December until January 2nd. There will be no cover during this time, but we will respond to any queries as quickly as possible on our return. Please also refer to the study website for a comprehensive list of FAQs.

Fidelity

We want to thank everybody for completing the fidelity checklists (and recordings)!

We have great return rates and are pleased with the useful insights they are generating for the fidelity of the study. They help us to identify the 'gaps' in training and where more support is needed.
