# Academic Achievement Scholarships 2020/21.

**Recognising your hard work and achievement.**

## Academic Achievement Scholarships.

At the Department of Mechanical Engineering, we want to recognise the hard work and achievement of our undergraduate students.

That's why we've introduced our Academic Achievement Scholarship for both UK Home and EU students joining us in 2020/21.

The scholarship is a cash bursary that will be offered to eligible students who join us as a first year undergraduate – it is given automatically with no need to apply.

Further cash bursaries are also available throughout your course where continued academic achievement is made.

**Want to know more? Please get in touch via [admit.mech@sheffield.ac.uk](mailto:admit.mech@sheffield.ac.uk)**

### Eligibility Criteria:

You will need to join us as a first year undergraduate fee-paying student for 2020/21 with UK Home or EU status, having selected our course as your 'firm' UCAS choice.

There are three bursary awards available, which require a minimum A level grade or equivalent.

**A\*A\*A\* = £1500 cash bursary (level 3)**  
**A\*A\*A = £1250 cash bursary (level 2)**  
**A\* A A = £1000 cash bursary (level 1)**

To qualify for the first level of award you must achieve an A\* in one of our required course subjects. For the second, you will need A\* grades in two required subjects including maths. For the third level, you must achieve A\* in two required subjects including maths plus an A\* in any additional subject.

If you receive an Academic Achievement Scholarship, you could also be awarded £1000 for each subsequent academic year. This is subject to you maintaining a 69.5% overall average mark.
