

Are you caring for, or supporting, a relative or friend living with Mesothelioma?

The Mesothelioma UK Research Centre are running a research project which might be of interest to you. The new project Supporting our Supporters aims to improve the experiences of family and friends who provide unpaid care and support to people with mesothelioma.

Supporting our Supporters aims to find out how needs change over time, and what helps people in their caring role, and what are the gaps.

The study is now **OPEN**, and we are looking for people to take part who: -

- 1) provide unpaid help to a relative/friend needing support due to mesothelioma
- 2) live in the UK
- 3) are adults (18+ years)

This includes people who live with the person with mesothelioma, or elsewhere (either locally or at a distance).
