

## Are you supporting a relative or friend living with Mesothelioma?

The Mesothelioma UK Research Centre are running a research project which might be of interest to you. The study is called **Supporting our Supporters**. It aims to understand the experiences of family and friends who provide unpaid support to people with mesothelioma.

**Supporting our Supporters** aims to find out how needs change over time, and what helps people in their caring role, and what are the gaps. We are also researching the needs of bereaved families/friends.

**The study is OPEN, and we are inviting people to take part in surveys and interviews.**

### Current carers survey

### Bereaved carers survey

**The QR codes** (on the left) open the online surveys

**Paper survey forms** are available via the contact details below.

Please get in touch if you are interested in taking part in an interview for the study.
