Department of Health including NIHR (DH), GB

[NIHR Public Health Research Programme – Researcher-led work-stream](#)

The Public Health Research (PHR) programme invites research proposals under the researcher-led funding stream. Proposed research should aim to evaluate public health interventions, effectiveness and cost-effectiveness, and include both primary research and evidence synthesis.

Closing date: 21 November 2011 Deadline time: 1pm

http://www.phr.nihr.ac.uk/fundingopportunities/researcher_led.asp?src=NIHR_Sep11

[NIHR i4i programme – third call for proposals](#)

The NIHR Invention for Innovation (i4i) programme invites outline research proposals to develop innovative medical technologies that will address existing or emerging healthcare needs in the NHS.

i4i supports collaborative research and development involving at least two partners from industry, academia or the NHS.

Applicants and co-applicants requesting funding must be based in England or Wales.

Applicants must provide evidence that their proposed medical product is viable (for example, evidence of initial bench research and a study of the commercial market). All applicants invited to submit a full proposal are required to present a high level summary to the selection panel and take part in a question and answer session.

Closing date: 7 December 2011 for outline submissions Deadline time: 5pm.

<http://www.ccf.nihr.ac.uk/i4i/Pages/Home.aspx>

[Clinical Research Facilities for Experimental Medicine competition](#)

The NIHR invites applications for Clinical Research Facilities (CRFs) for Experimental Medicine funding. This is a one-stage open competition to renew and refresh NIHR Funding for CRFs for Experimental Medicine.

The purpose of the scheme is to provide NIHR funding to meet the necessary recurrent NHS infrastructure costs of dedicated purpose-built clinical research facilities that are supporting world-class experimental medicine research. NIHR

funding for CRFs for Experimental Medicine will provide funding to the NHS Trust, over the period 1 September 2012 to 31 March 2017.

Closing date: 14 December 2011 Deadline time: 5pm <http://www.ccf.nihr.ac.uk/Pages/NIHRInfrastructureCompetitions.aspx>

[HTA Programme – commissioned calls for full proposals](#)

The NIHR Health Technology Assessment (HTA) Programme invites research proposals that provide information about the effectiveness, costs and broader impact of healthcare treatments and tests.

Full research proposals are sought on the following topics:

Primary Feasibility Study:

- Ablation for suspected renal tumours

Full Evidence Synthesis:

- Interventions to prevent postnatal depression
- Parental incentives for increasing uptake of immunisations in pre-school children
- Psychosocial interventions for maltreated children and adolescents

Closing date: 12 January 2012 Deadline time: 1pm

<http://www.hta.ac.uk/funding/standardcalls/callopenfull.shtml>

[HTA - Clinical Evaluation and Trials](#)

Researchers are invited to submit outline proposals for evaluation studies within the remit of the Health Technology Assessment Programme. Evidence Synthesis applicants should submit full applications. Primary research applications will be accepted in the usual way. The HTA programme is interested in receiving proposals addressing any health problem in areas not otherwise well covered in our portfolio.

Closing date: 30 January 2012 Deadline time: 1pm

http://www.hta.ac.uk/funding/clinicaltrials/index.shtml?src=fundingoct11_5

[HTA – commissioned calls for outline proposals](#)

The NIHR Health Technology Assessment (HTA) Programme invites outline research proposals on the following topics:

Primary Research:

- Quitting smoking in pregnancy and following childbirth
- Interventions for preventing occupational irritant hand dermatitis in the NHS
- Immunisation of children and young people looked after by the state
- Surveillance programmes for people with inflammatory bowel disease
- Cystatin C test in the assessment of renal function
- Elemental/polymeric nutrition for the maintenance of remission in Crohn's disease
- Radiofrequency renal sympathectomy for the treatment of resistant essential hypertension
- Surgical treatments for moderate urinary incontinence in men after prostate surgery
- Early specialist palliative care for patients with metastatic non-small-cell lung cancer
- Interventions for psychosexual dysfunction after treatment for gynaecological malignancy
- Psychological treatments for fatigue in patients with inflammatory arthritis
- Long acting reversible contraception for secondary prevention of endometriosis

Primary Feasibility Study

- An interventional package for parents of excessively crying infants
- Timing of intravenous fluids after trauma

Evidence Synthesis

- Screening for hyperglycaemia in pregnancy

IPD (Evidence Synthesis)

- HbA1c targets for patients with type 2 diabetes
- Monitoring patients with chronic heart failure

Closing date: 9 February 2012 Outline submission Deadline time 1pm

NIHR Clinical Lectureship – 2011

The NIHR Clinical Lectureships are specialty training posts that incorporate academic training. Clinical Lecturers (CLs) spend 50% of their time undertaking specialist clinical training and 50% undertaking research or educationalist training. CLs are aimed at those who are advanced in their specialty training, have completed a research doctorate or equivalent and show outstanding potential for continuing a career in academic medicine. The duration of a CL is for a maximum of 4 years or until CCT is reached, whichever is sooner. Alongside clinical training, CLs will be able to develop their academic skills and

New Fellowship Opportunities

Arthritis Research UK

Clinician Scientist Fellowships

Fellows will be paid on the Clinical Lecturer Scale with the first year's salary reflecting their current specialist registrar or equivalent salary. The salary will rise annually in line with the Clinical Lecturer Scale which will continue to apply even if the applicant obtains their CCST during the course of the fellowship.

Amount of funding available: Unspecified

Closing date: 10 December 2012

Duration: > 3 years

Arthritis Research UK

Senior Research Fellowship

Salaries will be according to age and experience on the appropriate scientific or clinical salary scale. Application may also be made for a supporting technician, running costs and essential equipment.

Amount of funding available: Unspecified

Closing date: 10 October 2012

Duration: > 3 years

European Crohn's & Colitis Organisation

ECCO Fellowships

A total amount of 30,000 Euro (approx £26,187) will be awarded annually for one ECCO Fellowship.

Amount of funding available: £10K - £50K

Closing date: 01 October 2012

Duration: 6 mths - 1 year

Arthritis Research UK

Career Progression Fellowships

The fellowship will provide 50% of a full time salary for up to 2 years with appropriate running costs in partnership with the host institution, who will agree to co-fund 50% of the salary. This fellowship is not renewable and successful applicants will be expected to secure a fully funded fellowship or academic post by the end of the fellowship.

Amount of funding available: Unspecified

Closing date: 19 September 2012

Duration: 1 year - 3 years

Royal Society of Tropical Medicine and Hygiene

Garnham Fellowship

One Garnham Fellowship of up to £4,000 will be awarded annually.

Amount of funding available: < £5K

Closing date: 15 September 2012

Duration: 1 year - 3 years

Motor Neurone Disease Association

Clinician Scientist Fellowships: MRC/MND Association Lady Edith Wolfson Fellowships

This award is a post-doctoral Fellowship providing up to four years support for laboratory-based studies. There is also a patient-oriented version of the scheme that provides up to five years support, which is intended for research requiring up to 40% of the Fellow's time to be spent in clinical work.

Amount of funding available: Unspecified

Closing date: 26 April 2012

Duration: > 3 years

Motor Neurone Disease Association

Senior Clinical Fellowships: MRC / MND Association Lady Edith Wolfson Fellowships

Support for up to five years is awarded to clinical researchers of exceptional ability.

Amount of funding available: Unspecified

Closing date: 26 April 2012

[MRC - Medical Research Council
Career Development Award](#)

The fellowship provides a competitive salary, research support staff, research consumables expenses, travel costs and capital equipment appropriate for the research project under full economic costs. The award also provides funding for research training outside the UK. Higher requests for resources must be justified in terms of delivering the objectives of the research proposal. An MRC career development award may be awarded for any period up to five years.

Amount of funding available: Unspecified

Closing date: 28 February 2012

Duration: > 3 years

[MRC - Medical Research Council
Senior Non-Clinical Fellowship](#)

The award provides a competitive personal salary for the fellow, research support staff, research consumables expenses and capital equipment appropriate for the research project, travel costs, and other appropriate items under full economic costs at a UK research organisation. An MRC senior non-clinical fellowship may be awarded for any period up to five years.

Amount of funding available: > £100K

Closing date: 28 February 2012

Duration: > 3 years

[MRC - Medical Research Council
MRC/MND Association Lady Edith Wolfson Fellowships](#)

At the pre-doctoral level, the fellowship provides a competitive personal salary up to but not including NHS consultant level, and a research training support grant of up to £15,000 per year (or £45,000 over the three year period). This may cover consumables, PhD fees, equipment, conference travel, other course fees; however, each item must be separately costed and justified. At the post-doctoral level, the fellowship provides a competitive personal salary, up to but not including NHS consultant level, research expenses, and travel costs at an appropriate level for the research, under full economic costs (FEC).

Amount of funding available: £10K - £50K

Closing date: 19 January 2012

Duration: > 3 years

[MRC - Medical Research Council
MRC/Cystic Fibrosis Trust Clinical Research Training Fellowship](#)

At the pre-doctoral level, the fellowship provides a competitive personal salary up to but not including NHS consultant level, and a research training support grant of up to £15,000 per year (or £45,000 over the three year period). This may cover consumables, PhD fees, equipment, conference travel, other course fees; however, each item must be separately costed and justified. Where animals are requested for the project, funding may be sought separately from the research training support grant. If the fellowship includes an element of research training outside the UK, overseas travel to the training centre and living allowances may also be requested separately from the research training support grant. At the post-doctoral level, the fellowship provides a competitive personal salary, up to but not including NHS consultant level, research expenses, and travel costs at an appropriate level for the research, under full economic costs (FEC).

Amount of funding available: £10K - £50K

Closing date: 19 January 2012

Duration: 1 year - 3 years

[MRC - Medical Research Council
MRC/Kidney Research UK Clinical Research Training Fellowships](#)

At the pre-doctoral level, the fellowship provides a competitive personal salary up to but not including NHS consultant level, and a research training support grant of up to £15,000 per year (or £45,000 over the three year period). This may cover consumables, PhD fees, equipment, conference travel, other course fees; however, each item must be separately costed and justified. At the post-doctoral level, the fellowship provides a competitive personal salary, up to but not including NHS consultant level, research expenses, and travel costs at an appropriate level for the research, under full economic costs (FEC).

Fellowships

Arthritis Research UK, GB

Foundation fellowships

These aim to retain the best postdoctoral researchers in areas of research relevant to arthritis and musculoskeletal disease and provide an opportunity for fellows to develop independent research ideas at an early stage in their career. Fellowships will normally provide a full-time salary over three years according to age and experience on the appropriate scientific salary scale.

Closing date: 09 May 2012

http://www.arthritisresearchuk.org/research/applying_for_a_grant/types_of_grant/fellowships/foundation_fellowships.aspx

Arthritis Research UK, GB

Allied health professional training fellowships

These are offered to nurses and allied health professionals who are committed to the care of patients with arthritis and related musculoskeletal diseases, to undertake training in clinical or basic science research at a UK institution leading to a PhD or other appropriate higher degree. Fellowships may be held on a full-time basis over three years or part-time over five years and will provide a salary commensurate with the applicant's current salary, together with reasonable running costs.

Closing date: 15 February 2012

http://www.arthritisresearchuk.org/research/applying_for_a_grant/types_of_grant/fellowships/allied_health_fellowships.aspx

MRC - Medical Research Council

Senior Clinical Fellowship

The MRC provides the salary of the senior clinical fellow, who will be an employee of the host institution. The costs of research support staff, research consumables expenses and capital equipment appropriate for the research project, an annual travel allowance, and other appropriate items can be requested under full economic cost.

Amount of funding available: unspecified

Closing date: 26 April 2012

Duration: > 3 years

<http://www.rdfunding.org.uk/queries/ListGrantDetails.asp?GrantID=1626>

MRC - Medical Research Council

Clinician Scientist Fellowship

The fellowships provide personal salary costs, together with research support staff, research consumables expenses, travel costs and capital equipment appropriate for the research project under full economic costs. The award also provides the opportunity for fellows to undertake research training outside the UK, for which overseas living costs are available. The fellowship provides four years' support.

Amount of funding available: unspecified

Closing date: 26 April 2012

Duration: > 3 years

<http://www.rdfunding.org.uk/Queries/ListGrantDetails.asp?GrantID=1627>

National Association for the Relief of Paget's Disease, GB

Grant programme

The programme supports research that will advance understanding of the causes of Paget's disease and/or provide new insights into management of the disease and the prevention of complications. It is unlikely that projects with total value in excess of £100,000 will be supported.

Award amount maximum: £100,000

Closing date: 30 March 2012

[Wellcome Trust](#)

[Biomedical Science Principal Research Fellowships](#)

Awards are for seven years in the first instance, and provide both a personal salary and research programme funding in full. After the first period of award, the fellowship will be subject to a competitive scientific review, which will subsequently occur on a rolling basis every five years. Fellowships will be renewed on a partnership basis; the Trust and the host institution will jointly fund the Principal Research Fellow's basic salary through a '50:50' arrangement for the duration of any renewal period. The Trust will provide research programme costs throughout the entire period of the fellowship. Please see their website for further details.

Amount of funding available: > £100K

Closing date: Apply Anytime

Duration: > 3 years

<http://www.rdfunding.org.uk/queries/ListGrantDetails.asp?GrantID=4590>

[Wellcome Trust](#)

The NIHR Research Design Service
for Yorkshire & the Humber

The National Institute of Health Research (NIHR) Research Design Service for Yorkshire & the Humber (RDS YH) supports researchers to develop and design high quality research proposals for submission to the NIHR and other national, peer-reviewed funding competitions for applied health or social care research. This support is provided free of charge.

If you need [support or specialist advice](#) to turn your ideas into research proposals, or to further develop your existing proposals, then please explore our site to see what we can offer.

Face-to-face advice is available for local researchers, supported by telephone and email. Just complete one of the online 'Request for Advice and Support' forms on the [Advice and Support](#) page of this website and we will be in touch to arrange an appointment.

[Request for RDS Advice and Support - Initial Advice](#)

[Request for RDS Advice and Support - Bespoke Advice](#)

Please contact us if you would like more information at rds-yh@sheffield.ac.uk or telephone our general enquires number on 0114 222 0828 - we look forward to hearing from you.
