Estates & Facilities Management
Transport Services

Work-Related Driving Policy

Introduction

The aim of the Policy (effective from 01.12.09) is:

- to ensure compliance with the Health & Safety Executive (HSE), Department of Transport (DoT) and The Royal Society for the Prevention of Accidents (RoSPA) Guidance for Employers “Driving at Work – Managing work-related road safety”
- to fulfil the requirements of the University’s statutory ‘duty of care’
- to meet current insurance sector standards

Recent changes in standards relating to ‘business travel’ have placed greater responsibility on the employer for the safety and welfare of those engaged in work-related driving. These require the University to modify existing arrangements and to provide a clear policy to all concerned.

The Policy is applicable to all persons who drive University owned or leased vehicles, and to those who drive their own vehicles for business purposes (e.g. placement visits, attendance at conferences, business development, etc).

It details the arrangements necessary and the individual and collective responsibilities which will ensure that the risks associated with occupational driving are minimised, so far as is reasonably practicable.

1. Legal and regulatory background

1.1 The applicable legislation and standards include:
- The Health and Safety at Work Act 1974 (Section 2)
- The Road Traffic Act 1991
- The Corporate Manslaughter & Corporate Homicide Act 2007
- The Working Time Regulations 1998 (as amended)
- The Management of Health & Safety at Work Regulations 1999
- The Current Highway Code
- Driving at Work – Managing work-related road safety (HSE, DfT, RoSPA)

1.2 The ‘Driving at Work’ Guidance clearly states that the requirements of Section 2 of the Health & Safety at Work Act 1974 (HSWA) and Regulation 3 of the Management of Health & Safety at Work Regulations 1999 (MHSW) apply to all work related activities, including ‘work related driving’.
1.3 The Guidance states that it is essential to have an effective Policy which covers the issue of work-related driving, clearly defining responsibilities of both the employer and employee and the arrangements for implementation. In addition, a documented risk assessment is required in order to comply with the MHSW Regulations. A generic risk assessment for drivers can be found on the Safety Services website; this should be used where possible. If the nature of the journey falls outside the scope of the generic risk assessment then a bespoke risk assessment must be completed (See Appendix 6).

2. Purpose of the policy

2.1 The purpose of the Policy is to ensure that adequate controls are in place to protect both the institution and the individual and to provide a set of standards which form a framework within which all parties may confidently operate.

2.2 The Policy recognises that there are distinct categories of employees who drive as part of their work activities:
- Employees who are required to drive vehicles owned/leased by the University as an integral part of their employment (e.g. Drivers, Porters, Catering Staff, Technical Support Staff).
- Employees who use their own vehicles or hired vehicles on a casual basis in order to undertake some element of their role within the institution (e.g. outreach work, placement visits, business development, and attendance at conferences).

2.3 The Policy establishes a framework for dealing with situations which may arise as a consequence of its implementation, for example identifying persons who are unfit to drive or no longer permitted to drive.

2.4 This Policy does not diminish in any way the individual’s responsibility to act within the law in all regards when driving on the public highway.

2.5 The Policy makes the assumption that having regard to the environmental impact of motor vehicles, the University encourages the consideration of alternative means of transport.

2.6 In summary, it seeks to:
- ensure the vehicle used is suitable for the activity being performed, and is regularly maintained in a safe and roadworthy condition;
- establish arrangements which will ensure that persons who undertake work-related driving are qualified to drive, insured to drive and fit to drive;
- set out the legal position/driver responsibility for specific road safety issues;
- ensure that driving schedules are planned and reasonable;
- define current compliance standards for those who drive a minibus for the University;
- provide information and guidance for drivers in the event of a road traffic accident;
- set out the options available to the University and the driver in the event of ill-health or disqualification.
3. Policy

3.1 Qualified to drive

3.1.1 All persons who drive on behalf of the University, either as an essential part of their employment or on a casual basis, are personally responsible for ensuring that they are qualified to drive the relevant type of vehicle within the UK. Those intending to take a University owned or leased vehicle overseas on University business must consult the Transport Manager before making any arrangements.

3.1.2 All persons who drive University owned or leased vehicles as an essential part of their employment must present their driving licence for inspection by their Departmental Administrator (as designated by Head of Department) on an annual basis, to ascertain their continued eligibility to drive.

3.1.3 When Departments are recruiting for a job involving driving, successful applicants at interview must not be recommended for the post until a driving assessment has been undertaken by Transport Services.

3.1.4 Departmental Administrators must ensure that anyone who drives vehicles (whether University owned, privately owned, hired or leased for their use) for University business or related activities has a valid driving licence and are eligible to drive. This should be achieved by viewing and photocopying the original driving licence prior to vehicle use (and thereafter at least on an annual basis). All photocopies should be signed and dated by the licence holder and licence checker. In addition, a declaration must be signed by the licence holder stating that they will inform the University immediately should any circumstances of their driving licence entitlement change before the next inspection is due (See Appendix 2).

3.2 Insurance

3.2.1 The law requires all persons who drive on the public highway to be adequately and appropriately insured. This means that any person driving, albeit occasionally, in connection with the business of their employer must be covered for ‘business use’.

3.2.2 All persons who drive University owned or leased vehicles as an essential part of their employment and all persons who request vehicles to be hired or leased by the University Transport Services for their use on business purposes are automatically covered by the University insurance policy. Anyone hiring outside this arrangement must use University of Sheffield preferred suppliers only to retain this insurance provision.

3.2.3 Persons who use their own vehicles for University business purposes on a casual basis or for convenience (e.g. travelling across campus, travel to meetings) must ensure that:
• their personal insurance policy states ‘for business use’, ‘for occasional business use’, ‘for purposes in connection with the business/occupation of the policyholder’ or a similar phrase;
• their vehicle is in a safe and roadworthy condition and has an MOT test certificate if applicable;
• is regularly maintained to a professional standard;
• A University of Sheffield self certification health declaration form is completed on an annual basis (See Appendix 5) together with a University of Sheffield Driver Registration Form (See Appendix 2).

3.3 Fitness to drive

3.3.1 It is every individual’s responsibility to ensure that they are medically fit to drive on the public highway.

3.3.2 Drivers of University vehicles must declare to their line manager if they are suffering from any medical condition which might adversely affect their ability to drive safely (e.g. uncontrolled epilepsy, diabetes or vision impairment). Reference will then be made to the Staff Occupational Health Service who will assess the individual concerned and advise University managers regarding the correct course of action and available alternatives (where applicable).

3.3.3 The University will seek to support individuals to ensure that fitness to drive is achieved where the person drives on behalf of the University either as an essential part of their employment, or where the driving is part of an approved activity (e.g. driving a University minibus).

3.3.4 This support includes:
• pre-employment medical screening;
• health assessment examinations upon commencement of employment for vocational and minibus drivers (and at intervals thereafter as determined by SOHS). See Staff Occupational Health Service web-site ‘Guidance for University Drivers Health Assessment Procedure’.

3.4 Minibus drivers

3.4.1 UK law requires all minibus drivers to be over 21 years of age, have held a UK car licence for at least 2 years and have an entitlement to drive vehicles with a D1 classification.

3.4.2 However, for insurance purposes, in order to be recognised as an ‘authorised’ driver, all drivers of University owned, leased or hired minibuses must be at least 23 years of age and must have held a valid UK driving licence for at least 2 years.

3.4.3 All minibus hires must be arranged through Transport Services. Authorised minibus drivers must submit their driving licence annually to the University Transport Services Office, must have an eyesight examination and health check, and must undertake a minibus driver assessment (not examination)
through the relevant University schemes at intervals of not more than 2 years to retain their ‘authorised’ status.

3.5 Road safety

3.5.1 The law states that it is the responsibility of the driver to ensure that any vehicle driven on the public highway is safe and fit for use (Appendix 1).

3.5.2 In the case of employees who use their own private vehicle for the purposes of work, they must ensure that the vehicle has a valid MOT certificate (where applicable), is properly maintained and is roadworthy.

3.5.3 Where an employee uses vehicles owned, leased or hired by the University, appropriate service and maintenance arrangements will be established in accordance with manufacturer’s recommendations to ensure that the vehicle is fit for use.

3.5.4 Drivers must not drive under the influence of alcoholic drink, intoxicating drugs or other substances which are likely to impair judgement or the ability to react quickly and appropriately to road conditions or circumstances (including prescription drugs which may affect their ability to drive).

3.5.5 Employees who are driving whilst at work must comply fully with the law which prohibits the use of hand-held mobile phones whilst driving. It is also an offence to ‘cause or incite’ persons who are driving to be in breach of the law in this respect and therefore line managers should avoid making contact via mobile phone with employees when they are known to be driving. Employees are encouraged to make use of the voicemail facility on their mobile phones and make return calls when it is safe to do so. The installation of hands-free kits should only be undertaken following a risk assessment.

3.5.6 From 1 July 2007 a ban on smoking in enclosed public spaces was introduced in England by the Government (such bans in Scotland and Wales were already in force). Smoking is not allowed in vehicles which are available to other people even if there is only one person present. All University and hire company vehicles must display No Smoking symbols in each compartment.

3.6 Route planning/scheduling

3.6.1 Where employees are required to undertake work-related driving, it is expected that the schedule of driving, work activities and periods of rest are mutually agreed and determined so as not to place an undue burden upon the person concerned in accordance with Drivers Hours Regulations (see Transport Services web site).

3.6.2 The assessment of schedules should take into account:

- route selection;
- distance, time and duration of travel;
- opportunities for rest breaks;
- age and (in)experience of driver;
• prevailing weather conditions.

Driver fatigue is a major cause of road traffic accidents and the University has a legal ‘duty of care’ towards its employees and other road users.

3.7 Reporting accidents and incidents

3.7.1 Where employees who are driving University owned or leased vehicles (or vehicles hired by the University for their use), are involved in road traffic accidents or incidents which result in damage to vehicles, loss or damage to property or injury to persons, they must follow the procedures in 3.7.2 below.

3.7.2 Accident procedures:
• Stop to determine the extent of any injuries to individuals involved and damage to both vehicles and/or property.
• Do not under any circumstances apologise, admit blame or accept liability.
• Record as far as you are able the details of the accident using the attached pro-forma (See Appendix 4).
• Exchange information with others involved as detailed on the accident report form.
• If possible take photographs of the incident, and obtain statements from any independent witnesses.
• Upon return to the University, report the accident immediately to the Transport Services Office.
• The driver must complete an insurance Claim Form, including all relevant information, as soon as possible after the incident and return the form to Transport Services where it will be checked and forwarded to the Insurance Section.

3.8 Dealing with medical conditions affecting the ability to drive

3.8.1 Where employees are required to drive University owned or leased vehicles as an essential part of their duties, they must inform their line manager immediately at the onset of any new medical condition which would prevent them from driving legally on the public highway.

3.8.2 Managers will relieve the person of all driving duties with immediate effect and in consultation with the individual, identify suitable means by which they may continue to undertake their normal duties or alternative work activities (as a short-term solution).

3.8.3 Advice should be sought from Human Resources and, where applicable, the Staff Occupational Health Service in order to identify, in consultation with the individual, all reasonable adjustments which will allow the continued employment of the person and, wherever possible, without detriment to pay or conditions.

3.9 Dealing with employees who are disqualified from driving
3.9.1 Where employees are required to drive University owned or leased vehicles as an essential part of their duties, they must inform their line manager immediately of any disqualification which prevents them from driving legally on the public highway.

3.9.2 Managers will relieve the person of all driving duties with immediate effect and, in consultation with the individual, seek to identify suitable means by which they may continue to undertake their normal duties or alternative work activities (as a short term solution). If no such alternatives exist, then the person may be suspended from work to allow the matter to be considered further.

3.9.3 Advice will be sought from Human Resources to identify, in consultation with the individual and their line manager, the most appropriate course of action. Each case will be dealt with on its merits.

4.0 Fleet management

4.0.1 Where a department/individual requires a new or replacement vehicle on a permanent basis (whether it be leased or purchased outright), authorisation must first be obtained from the Head of Department (and in the case of allocation vehicles from the Director of Finance). Thereafter a request must be made to the Transport Manager who will specify the most suitable vehicle and undertake the tendering process.

4.0.2 When a department/individual wishes to dispose of a University owned vehicle, a request must be made to the Transport Manager who will re-allocate or dispose of the vehicle as appropriate. Any charges incurred or income gained will be passed to the ‘owning’ department. The Transport Manager has the authority to remove from service any vehicle that is not in a safe and roadworthy condition.

4.0.3 All vehicles operated on a permanent basis are subject to a planned Maintenance Programme, consisting of manufacturer’s servicing schedules and time-based safety inspections. It is the responsibility of the user department’s Head of Department to ensure that vehicles are presented to University Transport Services for maintenance work when requested and that a weekly vehicle roadworthiness check is undertaken by the vehicle user or a designated person, and that the check is documented on the rear of the vehicle log record form. Any defects identified should be reported to Transport Services as soon as possible (see Appendix 3). All vehicle repair and maintenance procedures are documented and retained at Transport Services within dedicated vehicle files.

4.0.4 University owned and leased vehicles have breakdown assistance cover. If a breakdown (or an accident which renders the vehicle un-roadworthy) occurs within 20 miles of the main campus within normal working hours, Transport Services should be contacted in the first instance. Outside of normal working hours or 20 miles radius of main campus, the recovery organisation should be contacted. Transport Services must then be informed at the first possible
opportunity. No authorisation for repairs should be given by the driver other than for a minor ‘get you home’ repair by the recovery service.

4.0.5 University owned or leased vehicles **must not** be altered or modified in any way without the prior consent of the Transport Manager. Any modification, addition or alteration to a vehicle that is approved will be undertaken and/or managed by Transport Services.

4.0.6 All University owned or leased vehicle journeys **must** be recorded by the driver on the “vehicle log record” form. The completed form **must** be handed in weekly to the Head of Department (or nominated designate) who should check for missing or incomplete entries. If any data is missing, it should be investigated at this point and rectified. Once satisfied that all data is correct, the Head of Department (or designate) **must** then sign and date the form as checked. The form **must** then be filed and retained for a period of two years (see Appendix 3).
Appendix 1

Pre-use checks

The Road Traffic Act states that the driver is responsible for the roadworthiness of any vehicle, and the load being carried, whilst travelling on the public highway.

It is therefore strongly recommended that for University employees intending to drive any vehicle on University business, they should undertake appropriate checks prior to using the vehicle, for example:-

- Tyre tread depth, and general condition.
- Foot and hand brake operation.
- Lights, indicators and hazard warning lights operate, and are clean.
- Horn operates.
- Screen wash and wipers operate.
- Seat belts, fitted and functioning.
- Mirrors secure, undamaged, correctly adjusted, and clean.

These are tasks which do not require any technical expertise and are the basic checks included in the current UK driving standards examination.

Additional checks for long journeys might usefully include:-

- Fluid levels (oil, coolant and screen wash)
- Tyre pressures
- Locks and security functional
- Fuel level
Appendix 2

The University of Sheffield

Driver Registration Form

Before completing please ensure you fulfil the following criteria:

1. You are 21 years of age or over
2. You have held a full driving licence for at least 2 years
   Note: special conditions apply if the above criteria are not fulfilled
3. If using your own vehicle on University business:
   a) your personal insurance policy states ‘for business use’, ‘for occasional business use’, ‘use
      for purposes in connection with the business/occupation of the policy holder’ or similar.
   b) your vehicle is maintained in a safe and roadworthy condition, and that it has a current
      MOT test certificate if applicable.

Appendix 4

Accident Report Form

In the event of a Road Traffic Accident involving a University owned or leased vehicle:-

Stop. Determine the condition of other persons involved in the accident, and also the condition of the vehicles. Contact the emergency services if anyone requires medical assistance. Contact rescue services or recovery services as appropriate.

Exchange information with other persons involved in the accident e.g.
Your name: ________________________________
Place of work: ________________________________
Work contact details: ________________________________
Vehicle registration No., make, and model ________________________________
Insurance details: ________________________________

Obtain those same details from the other parties involved

**Vehicle 1**
Name and address of driver: ________________________________
Vehicle owner (if different): ________________________________
Vehicle registration No: ________________________________
Make: ________________________________ Make: ________________________________
Model: ________________________________
Insurance details: ________________________________

**Vehicle 2**
Name and address of driver: ________________________________
Vehicle owner (if different): ________________________________
Vehicle registration No: ________________________________
Make: ________________________________ Make: ________________________________
Model: ________________________________
Insurance details: ________________________________

Details of accident: (location, speed, weather conditions, visibility, causative factors if known, etc.)

Names and addresses of independent witnesses:

Witness 1 ________________________________ Witness 2 ________________________________

Use next page to draw a simple diagram of the scene of the accident
Diagram of the scene of the accident

Include if possible, an outline of the roads, including where relevant, junctions, and damage to property, signage, and position of any injured persons and/or witnesses. You should also give an indication of speed, direction and position of all vehicles involved in the accident.
Appendix 5

University of Sheffield
Staff Occupational Health Service

Health Declaration for Category A Drivers

If you drive a vehicle on behalf of The University on an occasional / irregular basis, please complete the following health declaration on an annual basis.

I ...................................................... consider myself to be in good health and as far as I am aware, I have no known / existing medical condition or disability which would adversely affect my ability to drive on University business.

Signed: ........................................ Date: .........................

NB. If you have a medical condition or are uncertain if it is significant, you may discuss this with an Occupational Health Adviser at the Staff Occupational Health Service in confidence on Ext: 26215.

(This certificate must be retained by the Transport Manager)

</tbody>
</table>

**Overall Risk:**

**Comments:**
1. Vehicles must carry a suitable spare tyre in good condition
2. It is recommended that all vehicles carry a high visibility jacket, a first aid kit and warning triangle.
3. It is recommended that drivers carry a mobile phone with relevant telephone numbers - ie the University, proposed destination (if relevant), breakdown & emergency services
4. Report all University vehicle defects to Transport Services and to nominated Breakdown Service if away from Sheffield
5. All accidents should be reported to Transport Services and the Insurance Section of Finance.
6. In the event of any accident whilst driving on University business, an accident report form should be completed and forwarded to Safety Services.

**Additional References, Tasks etc:**
1. Compliance with Highway Code and University of Sheffield "Safe Driving Guidelines" is mandatory
2. If driver is loneworking then relevant University of Sheffield "Lone Working Guidance" should be followed.
3. Compliance with "Fitness to Drive" Policy is mandatory
