**Postgraduate Research Student Achievements 2010**

**Sajid Muhammad**
Prevalence of undernutrition of body weight and its risk factors among students of higher secondary school in Karachi, Pakistan

**Paul Mahoney**
Characterising outcomes in Rheumatoid Arthritis

**Phoebe Pallett**
Health inequalities and Breastfeeding

**Efstathios Papanicolas**
An Integrative Model of Health and drug treatment evaluation: A pilot study of client & program level factors as indicators of treatment engagement

**Brian Reddy**
Multi-Criteria Decision Making in Public Healthcare

**Muhammed Saddiqi**
Strengthening Health Systems for undernourished Populations in Sub Saharan Africa: Findings and Implications of Scaling Up Effective and Sustainable Models

**Anne Scott**
The one of Technology in diabetes in deprived areas

**Keon Ghaz**
An Investigation of the Use of Swi in Health Care Decision Making

**Pascaline Thiam**
Evaluating Derbyshire County Primary Care Trust’s Health Check programme for patients over age 75

**Hazel Squires**
A methodological framework for developing the structure of public health economic models

**Will Sullivan**
To what extent do models of smoking reduction and alcohol reduction undervalue potential health gains, by ignoring the correlation between the two?

**Hannah Fairbrother**
A qualitative study of Public Involvement in the National Cancer Research Network

**Christopher Welch**
The case formulation task in psychotherapy: Validity, reliability, and process of evidence gathering, and decision making.

**Yang Yang**
The development of condition specific preference-based measures for use in Economic Evaluation

**Joseph Dodds**
Psychoanalytic and Ecology at the Edge of Chaos

**Moe’s Majeed**
Gender Link Negotiation among Young People in Cameroon: A Mixed Method Study

**Konstantinos Vlassopoulos**
The Politics of Disability, Genetics and Reproductive Technology

**Tomie Alexander**
A quantitative longitudinal study of women and their partner’s postnatal health

**Mubashir Arain**
Evaluation of GP led walk in health care centres in Sheffield and Rotherham

**Nutritional Care**
Effect of consumption of nutrition and child survival in Ghana

**Robert Akparibo**
Health behavior of international travellers visiting Nepal

**Yaga Bhyrathi**
effects of international migration on left behind (wives and children) in Nepal

**Amy Buddle**
Influence of diabetes on the quality of life of diabetes patients

**Jagus Balasooriya**
Measuring Quality and Change in Renal Services

**Duncan Drury**
A Markov Decision Analysis Model to Aid the Management of a Patient with a Systemic Lupus Erythematosus

**Duncan Drury**
A Markov Decision Analysis Model to Aid the Management of a Patient with a Systemic Lupus Erythematosus

**Vicky Brown**
An evaluation of some features of the National EHQC data collection

**Victoria Brennan**
An evaluation of GP led walk in health care centres in Sheffield and Rotherham

**Kirsty Challen**
Development of Clinical Prediction Rule for Emergency Medical Admissions

**Marian Peacock**
Diabetes and women’s access to diabetes education and treatment in the UK.

**Sarah Cruickshank**
Qualitative and Quantitative Study of Workshops held in the UK.

**Elena Surewicz**
The impact of educational interventions on quality of life in patients with chronic kidney disease.

**Richard Gruber**
Analysis of 100 patients with systemic lupus erythematosus and their geographic distribution:

**Hynek Lhota**
A longitudinal follow-up study of patients with systemic lupus erythematosus

**Rebecca Prophet**
The development of a web-based survey tool for the evaluation of new healthcare interventions

**Maureen Fahey**
A thematic analysis of interview transcripts from patients who have been treated for systemic lupus erythematosus

**Emma Hall**
An exploration of the relationship between health and activities within the home

**Sarah Hargreaves**
Perspectives of service users and key stakeholders

**Rosalind Haddrell**
Who is eligible for BHF for ongoing housing? A qualitative study of the perspectives of service users and key stakeholders

**Carole Hirst**
Understanding and treating depression

**Antonio Huddleston**
Are women more vulnerable to mental illness?

**Rebecca Prophet**
A mixed methods study of the impact of education on health behaviours

**Jill Carlton**
The value of screening for amblyopia revisited.

**Carlton J, Czoski-Murray C.**
The value of screening for amblyopia revisited.

**Samantha Goodyer**
Using logic models to understand the impact of a social marketing approach for smoke-free awareness.

**Sarah Cruickshank**
The case for the adoption of a mixed methods approach to improving the quality of care for patients with chronic kidney disease.

**Will Sullivan**
The value of screening for amblyopia revisited.

**An exploration of the relationship between health and activities within the home

**Wolf Lofgren**
An investigation of the use of health economic methods in the evaluation of new health care interventions

**Lucy Gull**
Health and Alcohol Consumption in Older Adults

**Lucy Gull**
Health and Alcohol Consumption in Older Adults

**Sarah Haddrell**
Who is eligible for BHF for ongoing housing? A qualitative study of the perspectives of service users and key stakeholders

**Carole Hirst**
Understanding and treating depression

**Rebecca Prophet**
A mixed methods study of the impact of education on health behaviours

**Jill Carlton**
The value of screening for amblyopia revisited.

**Carlton J, Czoski-Murray C.**
The value of screening for amblyopia revisited.

**Samantha Goodyer**
Using logic models to understand the impact of a social marketing approach for smoke-free awareness.

**Sarah Cruickshank**
The case for the adoption of a mixed methods approach to improving the quality of care for patients with chronic kidney disease.
