[NIHR Programme Development Grants](#)

The NIHR Programme Development Grants invites proposals from leading research groups to undertake preparatory work that will position them to submit a successful Programme Grant for Applied Research application in a subsequent funding competition. Funding of between £20k and £100k is available over a period of 6-18 months. Closing date: 5 March 2012.

<http://www.ccf.nihr.ac.uk/PGfAR/PDG/Pages/default.aspx>

[EME programme - Researcher-led workstream](#)

The Efficacy and Mechanism Evaluation (EME) programme invites research proposals to evaluate clinical efficacy of interventions, add significantly to our understanding of biological or behavioural mechanisms and processes, explore new scientific or clinical principles, and include the development or testing of new methodologies.

Closing date: 9 March 2012, 1pm.

[NIHR Programme Grants for Applied Research](#)

The NIHR Programme Grant for Applied Research Applications invites research proposals from leading research groups for a coherent series of related projects to tackle high priority health issues. Proposals should provide evidence to improve health outcomes in England through promotion of health, prevention of ill health, and optimal disease management (including safety and quality), with particular emphasis on conditions causing significant disease burden. Funding of up to £2m is available over a period of three to five years.

Closing date: 19 March 2012.

[NIHR Clinical Lectureship – 2011](#)

The NIHR Clinical Lectureships are specialty training posts that incorporate academic training. Clinical Lecturers (CLs) spend 50% of their time undertaking specialist clinical training and 50% undertaking research or educationalist training. CLs are aimed at those who are advanced in their specialty training, have completed a research doctorate or equivalent and show outstanding potential for continuing a career in academic medicine. The duration of a CL is for a maximum of 4 years or until CCT is reached, whichever is sooner. Alongside clinical training, CLs will be able to develop their academic skills and will be encouraged to apply for funding to support further postdoctoral or educationalist training. The 2011 NIHR Clinical Lectureship recruitment round is now open and will end on 31 March 2012. Prospective applicants must contact the relevant Deanery in the first instance for further information on post availability and the recruitment process. <http://www.nihrtcc.nhs.uk/intetacatrain/clcr2011>

[Call for UK Clinical Research Collaboration Clinical Trials Unit Registration](#)

The UK Clinical Research Collaboration (UKCRC) Registered Clinical Trials Units (CTU) Network invites applications from both new and previously registered Units to register with the UKCRC. The registration is intended to help improve the quality of available expertise to carry out clinical trials in the UK. Leading the review is an International Panel of leading world experts in clinical trials.

To be eligible to apply, Units have to demonstrate they are capable of centrally coordinating multi-centre clinical trials and other well designed studies. This includes showing appropriate expertise in the design, conduct, data management, publicity, analysis and reporting of a study.

The closing date for applications is 5 April 2012.

<http://www.ukcrc-ctu.org.uk/?page=Reg>

[NIHR Healthcare Technology Co-operatives competition](#)

The NIHR invites applications for a two-stage competition to designate and fund Healthcare Technology Co-operatives (HTCs). This scheme will provide funding for NHS Organisations to act as centres of expertise to develop new concepts, demonstrate proof of principle and devise research protocols for new medical devices, healthcare technologies or technology-dependent interventions. NIHR HTCs will address clinical areas or themes of high morbidity and unmet need for NHS patients and healthcare technology users, which have not benefited from a high degree of innovation.

A briefing meeting for potential applicants will be held on the 29 February 2012.

The closing date for submission of the Pre-Qualifying Questionnaire by NHS Trusts in England is 19 April 2012.

[NIHR Public Health Research – Commissioned Research](#)

The NIHR Public Health Research (PHR) programme invites research proposals in the following areas:

- Creative enterprises in open access settings
- Newly licensed drivers

Closing date: 23 April 2012 Outline applications Deadline time 1pm
