Practical points

Below are some of the practical issues you should be aware of before undertaking a placement:

Financial Issues

Salary

- Whilst on placement you will receive a salary from your employer, the amount should be agreed prior to the placement commencing and should be stipulated in the placement contract.

- You may choose to work for a voluntary or charitable organisation in which case you may not get paid, it is important to be clear about the terms and conditions of your placement before you start.

Tax

- Whilst on placement you will pay income tax, this is deducted by your employer from your salary each month and the deductions will show on your payslip.

- It is important to give your new employer your P45 to ensure you are put on the correct tax code. If you do not have a P45, your employer will give you a P46 form to complete and they will allocate a tax code. More information can be found by visiting:

Employment legislation

- You are legally entitled to a written statement from your employer outlining the main terms and conditions of your employment, this should be issued within two months of starting work however most employers issue this before you start work.
- You will be required to sign a placement agreement which forms an agreement between the University of Sheffield, you the student and the placement provider (the employer).

Holidays/annual leave entitlement

- As an employee you are legally entitled to 20 days paid holiday per year. Your employer does not need to pay you for bank holidays, if you get paid for public or bank holidays (there are 8 of these each year) this may come out of your paid holiday entitlement.
- Your holiday entitlement should be specified in the written terms and conditions you receive from your employer.

Illness/sick pay

- The minimum you are entitled to in the event of being absent from work due to sickness/illness is Statutory Sick Pay (SSP). You are not entitled to SSP until the fourth day of being off work.
