MSc Environmental Archaeology & Palaeoeconomy.
MSc Environmental Archaeology and Palaeoeconomy

An intensive 1-year* post-graduate taught degree with research experience

Course director: Prof Paul Halstead PhD  
E: p.halstead@sheffield.ac.uk  
T: +44 114 222 2905

Explore humanity’s relationship with nature through the study of the material remains of the past.

Receive advanced training in both the theories and methods that underpin the discipline.

Designed to appeal to both researchers and commercial archaeologists, as well as those in governmental and non-governmental organisations.

Student feedback 2013-15:
“[The course] provided a strong theoretical background in combination with practical skills regarding the study of the materials.” (2013-14)

Core modules
- Rethinking the Ancient Economy
- Reinventing Archaeology
- Archaeobotany
- Archaeozoology
- Dynamic Landscapes: Investigating ancient environments
- Research Design: Planning, Execution and Presentation
- Dissertation in Environmental Archaeology and Palaeoeconomy
