

Global Opportunities & Exchanges.

Where can I go?

Please note that the decision to approve a partner institution is made by each department based on information available at that time on the courses taught at the partner. These decisions can change with no notice based on changes in what is taught at the partner and changes in the requirements of the departments at Sheffield.

You are still required to fully research each university to ensure they have suitable modules available and that they are a suitable match for your degree programme.

An * indicates known restrictions set by the partner university. This usually means there are limited places, high competition and/or a limited choice. When reviewing partner information, please ensure you do this with extra care and attention. Do not choose a partner where you cannot meet your department's requirements.

Remember **summer schools** are available to students from **all departments**. They are **extra-curricular** and don't need to be subject specific. There are scholarships and discounts offered by some institutions for self-funded students.
