Outreach and Widening Participation.

School and College Visits.
At the University of Sheffield we offer a wide range of inspiring events, workshops and activities for students from all year groups. These are specifically designed to raise aspirations, enhance attainment and encourage informed decision making about study routes and career progression.

Based on teacher feedback, we have designed a suite of activities that provide opportunities for students to develop knowledge, skills and confidence in many areas of their university journey.
“The A Level research day was great, I have improved my research and referencing skills and enjoyed spending time on campus.”

– Study Skills participant
We can tailor provision to your students’ needs either via an on-campus visit to the University or an in-school visit. You can choose any combination of our activities and you are also welcome to contact us directly to discuss any specific requirements.

In addition (depending on staff availability) we are able to support school or college-based events such as Higher Education days, careers fairs and parents’ evenings.
What we do

- University of Sheffield campus tour
- Library visits and EPQ support
- Information and advice on courses, pathways and Higher Education
- Study skills workshops
- Career choices and employability workshop
- Student finance session
- Personal statement support and guidance
- Subject specific taster sessions
- Student life talks
- Library visits and EPQ support
“A fantastic day! Thank you so much for being so positive, engaging and welcoming.”

– Teacher, Ridgewood School
“The event ran like clockwork, I got a chance to go to the student session and was very impressed.”

– Teacher, St. Mary’s Catholic High School
