SDO responsive funding open call

The programme is open to all good ideas addressing important service delivery questions with robust methods, however, projects relating to costs and costings are particularly invited in this call, given the need for good research in this area to support decisions by managers and clinical leaders. Approximately £2 million is available for this call.

Closing date: 15 September 2011

Deadline time: 1pm

NIHR Clinical Lectureship – 2011

The NIHR Clinical Lectureships are specialty training posts that incorporate academic training. Clinical Lecturers (CLs) spend 50% of their time undertaking specialist clinical training and 50% undertaking research or educationalist training. CLs are aimed at those who are advanced in their specialty training, have completed a research doctorate or equivalent and show outstanding potential for continuing a career in academic medicine. The duration of a CL is for a maximum of 4 years or until CCT is reached, whichever is sooner. Alongside clinical training, CLs will be able to develop their academic skills and will be encouraged to apply for funding to support further postdoctoral or educationalist training. The 2011 NIHR Clinical Lectureship recruitment round is now open and will end on 31 March 2012. Prospective applicants must contact the relevant Deanery in the first instance for further information on post availability and the recruitment process.
