Health and Care Partnership
Sandpit
Innovative technologies to assist the health and care workforce – next steps

12 September 2019
Next steps
Funding available

• 3 pilot projects – max £25K each
• Must fit objectives of sandpit challenge: **Innovative technologies to assist the health and care workforce**
• Only new projects will be funded – novel or enhanced collaborations
• Collaborations must involve at least three partner organisations (including at least two of SHU, STH, TUOS).
• Clinicians and technologists must be involved in the collaboration.
• Deadline for applications – 10 October 2019
How you can get involved

• Look at the flipcharts in more detail – could you be in this team?
• Use the attendee sheet to find people for follow up
  • Networking over a bite
  • Email details provided
• Guidance on the EOI form has all the details – in your packs
How those not in the room can get involved

• All presentations, slides, attendee list and copies of flipchart as well as EOI form and guidance will be circulated on Monday 16 to attendees, and those on the waiting list
• Info will also be on https://www.sheffield.ac.uk/about/city/sandpit
• Anyone can contact people on the attendee list to discuss project ideas
• Think about how your colleagues who can’t be here might be a good fit to be involved in a team
Final thoughts

• Thank you
• Keep talking – how can innovative technology assist the health and care workforce?
• Applications due 10 October 2019
