

Enabling Adobe Flash Player guide

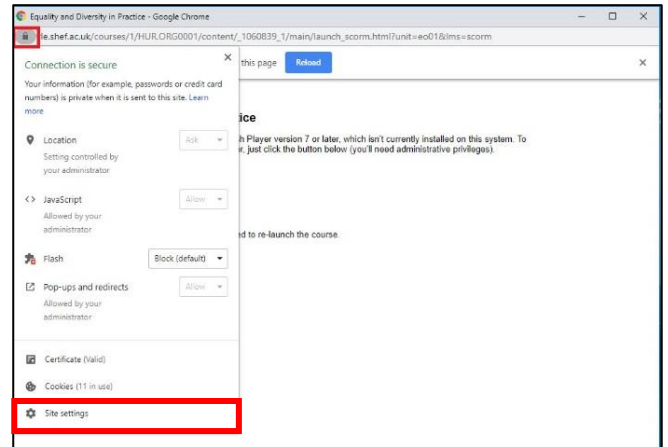

When you click on the training link you may be shown this window:

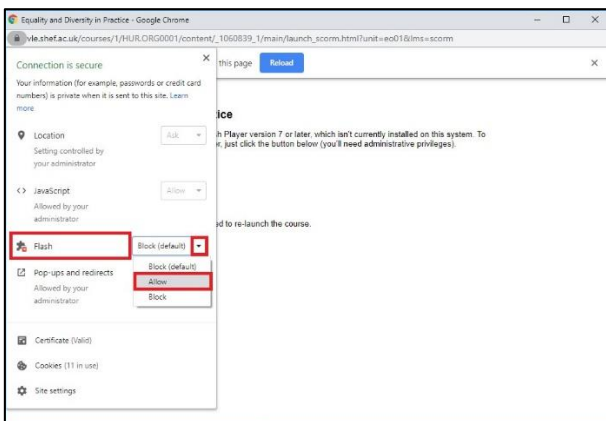

2. To enable the Adobe Flash Player please click on the padlock symbol

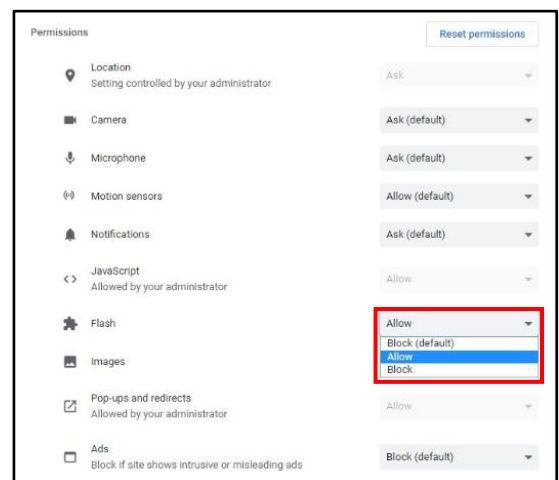

2. Alternatively, you can enable flash by clicking site settings

3. Find Flash, click on the drop down box and change from Block (default) to Allow

3. And then click to change the default setting from Block to Allow

Finally, click the cross at the top to close the menu. Then press F5 to refresh the training window.

If this doesn't work, exit the window and reload it from the Equality, Diversity & Inclusion
