5. **Update on Senior Recruitment and Appointments**

The Committee received an update on recent senior appointments and current senior recruitment.

The Committee approved the recommendation to invite those recently appointed to UEB posts to the Executive Performance Scheme 2019-20. They noted that individual objectives were being developed for Committee review and approval at its next meeting in April.

The Committee asked what arrangements were in place around senior succession planning and talent attraction. The Secretary provided an overview of what was currently in place, including plans to consider this as part of a broader review of academic leadership. The Committee agreed it would be helpful to receive an update of developments in this area at a future meeting.

6. **UEB 360 degree feedback**

At its October meeting, the Committee had discussed whether it would, on occasion, add value to the executive performance review cycle to have a broader view of individual UEB performance, through tools such as a 360 degree feedback process. A proposal was therefore shared with the Committee outlining who could provide this and how it could potentially work.

The Committee discussed this proposal and whether it could support the executive performance cycle. The Committee also considered that 360 degree feedback could be a useful tool to support personal development and given the recent appointments within UEB, it may also support the development of the team. The Committee suggested it be considered as an initial one-off exercise, which could be repeated at a later date if deemed useful and successful.

The Committee agreed that the concept should first be discussed with the President & Vice-Chancellor to consider if and when it would be appropriate.

7. **Senior Staff Freedom of Information Requests**

At its October meeting, the Committee received a proposal from the University Secretary which aimed to provide some clarity and a framework for responding to future FOI requests for senior remuneration that went beyond the University’s existing publication scheme. The Committee had supported the proposal but had asked that UEB members first be consulted. This item updated that UEB members had been fully consulted with and were comfortable with the proposal as put forward, but wished to be consulted with on any FOI that requested UEB information.

The Committee also discussed a response to a recent FOI request for UEB flight information which went beyond the detail in the University’s annually agreed
publication of UEB business-related expenses. The Committee agreed it was currently satisfied with the level of detail already published by the University annually but would continue to review this as required. The Committee noted that the University was working hard to embed sustainability into all aspects of its business, including business-related travel.

8. **Outcomes from the University’s Reward & Recognition Round**

Summary information and data was shared with the Committee for information on the 2019 Reward & Recognition Round. The Committee reviewed the data and noted the positive position on gender and gender bonus gap from the data.

9. **AOB**

No other items were raised.
