NIHR Clinical Lectureship – 2011

The NIHR Clinical Lectureships are specialty training posts that incorporate academic training. Clinical Lecturers (CLs) spend 50% of their time undertaking specialist clinical training and 50% undertaking research or educationalist training. CLs are aimed at those who are advanced in their specialty training, have completed a research doctorate or equivalent and show outstanding potential for continuing a career in academic medicine. The duration of a CL is for a maximum of 4 years or until CCT is reached, whichever is sooner. Alongside clinical training, CLs will be able to develop their academic skills and will be encouraged to apply for funding to support further postdoctoral or educationalist training. The 2011 NIHR Clinical Lectureship recruitment round is now open and will end on 31 March 2012. Prospective applicants must contact the relevant Deanery in the first instance for further information on post availability and the recruitment process.

New Fellowship Opportunities

Arthritis Research UK , GB

Foundation fellowships

These aim to retain the best postdoctoral researchers in areas of research relevant to arthritis and musculoskeletal disease and provide an opportunity for fellows to develop independent research ideas at an early stage in their career. Fellowships will normally provide a full-time salary over three years according to age and experience on the appropriate scientific salary scale.

Closing date: 09 May 2012

http://www.arthritisresearchuk.org/research/applying_for_a_grant/types_of_grant/fellowships/foundation_fellowships.aspx

Arthritis Research UK , GB

Allied health professional training fellowships

These are offered to nurses and allied health professionals who are committed to the care of patients with arthritis and related musculoskeletal diseases, to undertake training in clinical or basic science research at a UK institution leading to a PhD or other appropriate higher degree. Fellowships may be held on a full-time basis over three years or part-time over five years and will provide a salary commensurate with the applicant's current salary, together with reasonable running costs.

Closing date: 09 May 2012

Alzheimer's Research UK, GB

Clinical research fellowship

The scheme is suitable for clinical psychiatrists, clinical neurologists, clinical psychologists and similar specialists, and provides salary, research and travel costs for up to three years. Applications must fall within ARUK's remit: research into causes, cures, preventions, diagnoses and treatments for Alzheimer's disease and related dementias. Funding is for a maximum of £10,000 per annum.

Award amount maximum: £30,000

Closing date: 13 January 2012

MRC - Medical Research Council

Career Development Award in Biostatistics

The Fellowship provides the fellow's personal salary, research training support costs, annual travel/overseas costs, and all other relevant costs under Full Economic Costs (FEC). The career development award in biostatistics is primarily intended to support the training and development of the fellow. Where research staff is required then these should be requested and clearly justified; however, this level of support would be considered exceptional. Amount of funding available: Unspecified

Closing Date: 06 October 2011

Duration: 1 year - 3 years

<http://rdfunding.org.uk/queries/ListGrantDetails.asp?GrantID=10235>

MRC - Medical Research Council

Special Training Fellowship in Biomedical Informatics

The fellowship provides the fellow's personal salary, research training support costs, annual travel costs, and all other relevant costs under Full Economic Costs (see the guidance notes for completing the application form and the form itself for more details). Salaries for clinical applicants will be payable up to, but not including, NHS consultant level. Where the fellowship includes attendance on a formal course leading to a Masters degree, or parts of a taught course, course fees may be requested. An MRC special research training fellowship in biomedical informatics is usually awarded for three years or occasionally up to four years when there is special justification.

[Biomedical Science Principal Research Fellowships](#)

Awards are for seven years in the first instance, and provide both a personal salary and research programme funding in full. After the first period of award, the fellowship will be subject to a competitive scientific review, which will subsequently occur on a rolling basis every five years. Fellowships will be renewed on a partnership basis; the Trust and the host institution will jointly fund the Principal Research Fellow's basic salary through a '50:50' arrangement for the duration of any renewal period. The Trust will provide research programme costs throughout the entire period of the fellowship. Please see their website for further details.

Amount of funding available: > £100K
